DARWIN	Disturb MUOIQ	

2. Report

This report must provide a general overview of the voyage, with mention of any specific issues relevant to the

- Port or ports at which the loading took place:
 - The date the loading of the live-stock was completed at each port
 - Numbers of each species of livestock loaded at each port
- The port or ports at which the live-stock were discharged:
 - The dates the live-stock were discharged at each port
 - Numbers of each species of livestock discharged at each port
- Mortality – the total and percentage mortality for each species and class of livestock and the total and percentage mortality for each deck of the vessel
- Feed and water – comment on stock access and if there were any issues with maintenance
- Environmental conditions – comment on weather, temperature, humidity, ventilation and decks / bedding
- Health and welfare of the livestock
 - the number of livestock born, the number of abortions and estimated stage of pregnancy
 - any treatments given to the livestock during the voyage
- Relationships with the Master / crew / accredited stockperson / accredited veterinarian
- Comments on discharge operations
- Anything else relevant to the live-stock during the voyage

3. Veterinarian / ~~Stock Person~~ Declaration (delete as required)

I declare that the information that I have provided is true and accurate to the best of my knowledge.
