

VALE COMMENTS on Report 11 Jawan, Indonesia, June 2018

Mortality

No cattle deaths makes this voyage lower than historic average.

Veterinarian

None present as short-haul

Daily routine

Dry bulb and wet bulb thermometers were used with data was collected twice a day, one at 7 am and the other at 4 pm on all.

VALE COMMENT: these times may not necessarily represent peak WBT

Health and welfare

The IO noted on many occasions, all but one or two animals were lying down in their pens and good health and welfare observed with good feed intake.
