400	1.45			

Space Requirement Calculations – See Form L Appendix 1

Calculations for Feed and Water – See Form L Appendix 1

Water requirements – Cattle and Horses

= 45 Litres of water per head per day x number of expected days on board vessel + provision for 3 extra days or 25% (whichever is least).

Water requirements – Sheep and Goats

= 4* Litres of water per head per day x number of expected days on board vessel + provision for 3 extra days or 25% (whichever is least).

*Except when the ambient temperature during any day of the voyage exceeds 35°C, the minimum daily water requirement for sheep must be 6 Litres.

Feed requirements

= 0.02 x weight of animals (kg) x number of expected days on board vessel + provision for 3 extra days or 25% (whichever is least).

Sheep Slaughter	Var	PIC ID Ear Tags	2924

s. 22(1)(a)(ii), s. 47F(1) (BLOCK LETTERS) being the authorised representative of

Livestock Shipping Services Pty Ltd (EXPORT COMPANY), hereby declare that all the animals presented for export and health certification by AQIS have been sourced from the properties detailed on the attached list and that all the properties will grant access to AQIS for audit purposes. Disease freedom clearances in accordance with the requirements for the export of cattle to the destination stated above have been obtained for each of the properties listed. The animals described above and presented for export have all been:

- A. prepared for export in accordance with Australian Livestock Export Standards under Livestock Export Accreditation Program (LEAP);
- B. isolated from other animals for 10 (cattle) & 5 (sheep) clear days prior to export in accordance with the importing country health conditions in an approved facility yes / no (delete inappropriate option);
- C. tested in accordance with the importing country health conditions by, or under the supervision of an AQIS accredited veterinarian with negative results in each case yes / no (delete inappropriate option);
- D. treated in accordance with the importing country health conditions by, or under the supervision of an AQIS accredited veterinarian yes / no (delete inappropriate option);
- E. inspected by, or under the direct supervision of, an AQIS accredited veterinarian within 48 hours of export and been found to be free from clinical evidence of infectious and/or contagious diseases, external parasites and are fit to undertake the export journey yes / no (delete inappropriate option)

The pre-export isolation facilities at s. 22(1)(a)(ii) were inspected on 12-13/6/11 (date). I am satisfied that the facility meets the minimum criteria for the isolation of the animals presented for export. I am satisfied that the isolation premise meets the relevant welfare standards. The isolation facility has agreed to grant access to AQIS for audit purposes.

The animals presented for export have not, unless the prior written approval of the Certifying Veterinary Officer has been obtained, undergone s. 22(1)(a)(ii), s. 47F(1) interrupted free access to feed and water.

s. 22(1)(a)(ii), s. 47F(1) Accredited veterinarian or authorised welfare supervisor to supervise loading.
